@Pharma_Wizard

Pharmawizard

We are digital platform that supports people
empowerment and
manage daily health care issues

The Problem_{/1}

Alfred 43, he has a medical prescription for an antibiotic and he doesn't know that there might be a generic at a lower price

The Problem_{/2}

Judy 42, it's late in the night with a sick child at home , she has finish her known medicine and she hasn't any clue of what to do

The Problem_{/3}

Mary 81, she has a chronic condition, she often forgets to get her prescription needs

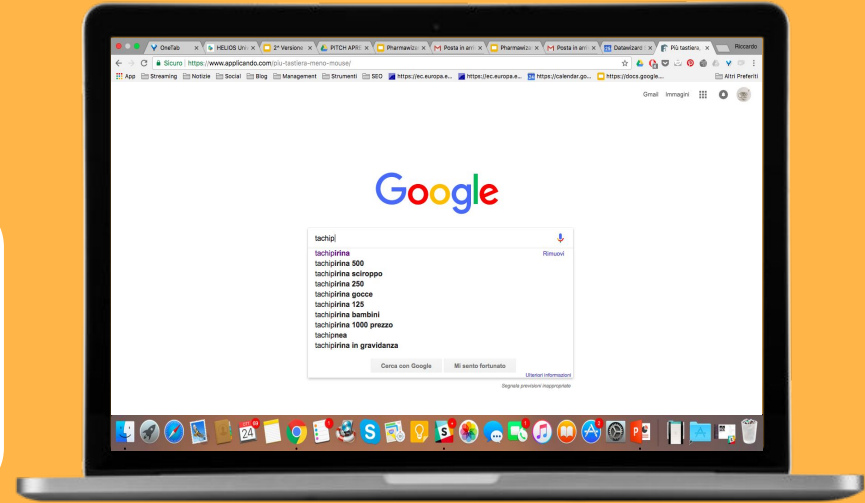

The Behaviour

Today, usually, when there is a health need people turn to **internet** to find a solution

“Health” is the second most searched topic on google

There are over 180 mln forum/blog on health

Health information online is fragmented and often not reliable

The Context

Users don't have a digital reference when it comes to their health

> 22%

of **people** worldwide solve their **health care problem** using **internet**
(and do not talk to the doctor)

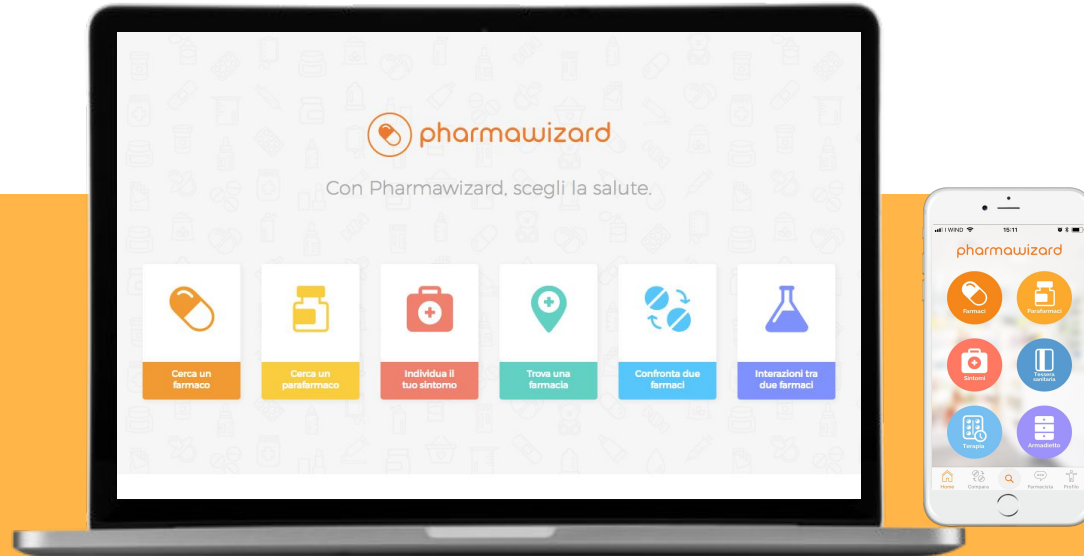

> 30%

of **people** worldwide discuss their **diagnosis**
and decision with the **doctor** because they
have found information on the **web**

The Solution

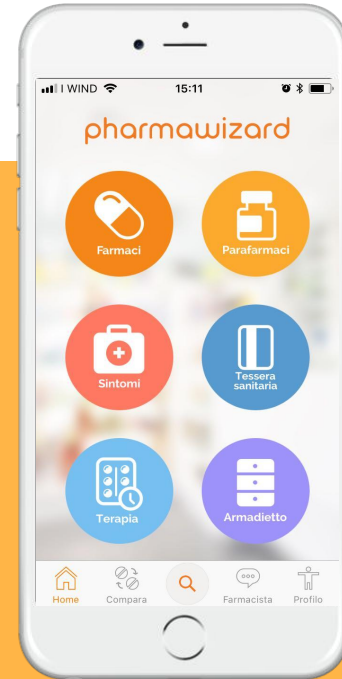

With **you**,
when you need it most

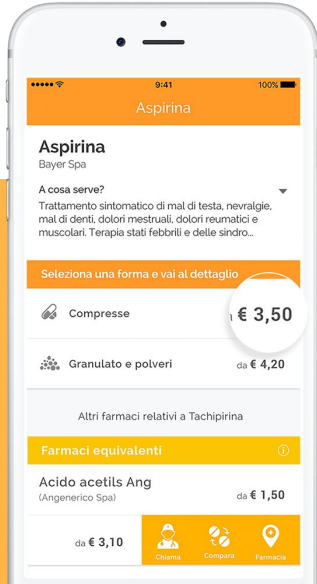

The Solution

*We transform data about health care daily matters
in valuable information and useful services*

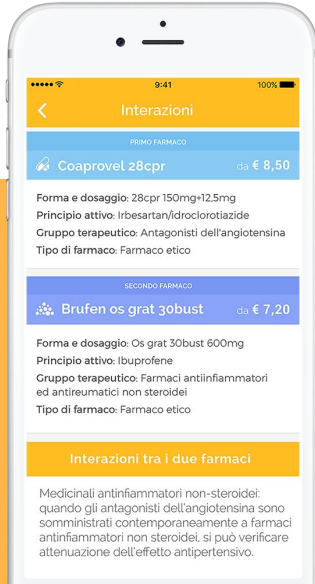

- ❖ Multi-channel solution for citizens in order to search, compare and "smartly" manage medicine
- ❖ Set of tools enabling companies to reach their target audiences
- ❖ Services to increase efficiency in the patient-doctor-pharmacists relationship
